### [ANES T H E S I A](#)

Chemistry in the Operating Room Throughout history, people have used various substances to relieve pain. Some substances were found serendipitously, while others were developed through trial and error. As early as 4200 B.C., opium was used to relieve pain. In the 19th century, ether and chloroform were used as general anesthetics. Modern anesthetics are used during medical and surgical procedures that would otherwise be too painful for the patient.

Operating Room Inadequate Med Surg Nursing Court Sees No Padding Nurses Problem With Insulin Lack Of Held Responsible Restraints Lawsuit Dismissed The Court of Appeals of Texas accepted the testimony of an out-of-state physician retained as an expert for the patient. The rationale behind the testimony was that the sixty-seven year-old patient's physician had her admitted to the hospital for abnormal weight loss, nausea, vomiting, and other symptoms.
